

Here at Brighton, we are committed to building 100% [EnergyStar](#) Homes. This year, we are celebrating our contribution of 1,636 EnergyStar Certified Homes!

But what exactly does that mean?

Well, ONE [Brighton Homes EnergyStar home](#) is equivalent to reducing CO2 emissions by 1.44 Metric Tons, OR growing 37 tree seedlings for 10 years.

Not only are #EnergyStar homes better for our environment, they are better for your pocket. On average, EnergyStar home owners save 30% on energy as compared to typical new homes.

For more fun stats on [EnergyStar](#) Homes and Brighton's commitment, check this out:
