

Allow us to introduce a brand new floor plan for our [new homes in Nampa ID](#). The [Centennial](#) is a one-story modern farmhouse with a bright, open feel.

This spacious one-story plan is 1,860 square feet with 3 bedrooms, 2 baths, and a 3-car garage. A fireplace forms the focal point in the family room, while the open kitchen contributes to a relaxed, functional vibe.

The [Centennial](#) features a private main bedroom suite at the back of the house. The main bath has a separate tub and shower, double sink vanity, and a large walk-in closet that has a separate door to the laundry room. Two additional bedrooms are at the opposite corner of the house and share a full bath. A convenient mudroom off the garage entrance also opens to the laundry room.

Like all Brighton homes, the Centennial features natural hardwood floors, energy-efficient Bosch appliances, and a smart WiFi thermostat. It's 100% Energy Star certified, which helps you save on utility bills and enjoy a comfortable home all year long.

Outside, this home has a welcoming feel with large windows, board and batten siding, and brick details. A covered back patio creates the ideal place to enjoy the coming summer weather. Set up an outdoor dining table or comfy furniture on the patio, where you can relax with a refreshing drink and a good book, or invite friends over for meals and conversation.
