

Come check out our Cottonwood model home in the Quartet community of [new homes in Meridian ID](#). Touring a model home is a great way to see a builder's style, selections, and quality while getting a feel for the community.

The versatile [Cottonwood](#) design is a single-level home with 3 bedrooms and 2.5 baths. Flex space is provided by a den just off the main living areas. With this floor plan, you have the option to add a 2' exterior extension to the den and second bedroom. At 2,340 square feet, this home is spacious, even without the extension. The open family room features a fireplace, built-in storage and shelving, and large windows. It flows seamlessly into the L-shaped kitchen with an island and pantry. A luxurious primary bedroom suite can become your own personal retreat with a soaking tub, shower, and double sink vanity.

The Cottonwood can be built with a 2 or 3-car garage. You also have the option to add a storage area or workshop in the garage. Outdoor features include a sheltered front entry and a covered back patio to help you enjoy the backyard. Exterior elevation choices are brick and siding with Craftsman-inspired details or stone and siding with a dormer.

This home has all the luxurious finishes and energy-saving features you'd expect from any Brighton home, a designer kitchen with custom cabinets, a smart WIFI thermostat, and Energy Star Bosch appliances. The entire home is 100% Energy Star certified.
