

We're seeing some exciting interior design trends for [homes in Nampa ID](#) this fall. Together these trends can create the warm, cozy, comforting vibe that we all love this time of year!

Check out these ideas to try in your new home:

### **Incorporate natural materials**

Bringing a "slice of nature" into our homes can make us feel calm and relaxed. Besides the obvious plants, think about adding more natural fabrics like wool throws or nature-inspired faux fabrics such as sherpa fleece. Light-colored natural wood tones and stone are hot right now for furniture, accessories and flooring.

### **Let some light in**

To further enhance the feeling of nature and to counteract the shortening days, open your curtains and blinds and let the sunshine in! If you're building a new home, choose a design with large windows for maximum impact.

### **Decorate with vintage and artisan items**

Whether they were handed down in your family or picked up at the local flea market, vintage décor pieces can add a timeless feeling to your home.

### **Think earth tones**

You can't go wrong sticking with a neutral palette of sand, terracotta, warm browns and soft greens. These colors are easy on the eyes and they mix and match almost effortlessly.
